

Coastal Invasive Plant Committee

Number of Invasive Plant Sites Reporting Presence of:

Eurasian Water-milfoil

There are no invasive plant sites within the CIPC region reporting the presence of Eurasian Water-milfoil.

Combating the spread and proliferation of Eurasian Water-milfoil can be costly and often meets with only limited success.

2010 Coastal Invasive Plant Committee

Invasive plant site tallies are representative of survey records entered into the IAPP database and are not inclusive of any such sites that may occur in unsurveyed areas within the CIPC Management Area.
